

BHAWANA BISHT

Jaipur, Rajasthan | +91 6376979602 | bishtbhawana005@gmail.com

linkedin.com/in/bhawanabisht0 | github.com/bhawanabisht0

PROFESSIONAL SUMMARY

BCA student with hands-on experience in data analysis, data extraction, data quality, and AI-assisted workflows. Skilled in Python, SQL, Excel, Google Sheets, Pandas, NumPy, Power BI, data cleaning, exploratory data analysis (EDA), and data visualization. Experienced in web research, unstructured data scraping, reporting, and implementing AI tools and prompt-based solutions to improve research and analysis workflows. Seeking entry-level opportunities in Data Analytics, Data Science, Quality Analysis, or AI Testing.

TECHNICAL SKILLS

Programming: Python

Data Analysis: Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Data Extraction

Data Visualization: Matplotlib, Power BI, Dashboard Development

Database: SQL

Spreadsheet & Reporting: Microsoft Excel, Google Sheets, Data Reporting

Web & AI: Web Research, Web Scraping, AI Tools, Prompt Engineering

Tools: Jupyter Notebook, Git

INTERNSHIP / WORK EXPERIENCE

Data Analyst Intern

Apr 2026 – July 2026

Creatik AI

- Analyzed, cleaned, and organized structured and unstructured data using Excel and Google Sheets to generate reports and meaningful data insights.
- Performed web research, data extraction, and unstructured data scraping to collect, structure, and prepare data for analysis and reporting.
- Researched and implemented AI tools and prompt-based solutions to improve data analysis, research, and workflow efficiency.

Data Science Intern

Jan 2026 – Feb 2026

Cognifyz Technologies

- Completed a data analysis assignment involving data cleaning, exploratory data analysis, and visualization using Python, Pandas, NumPy, and Matplotlib.
- Analyzed restaurant data to identify customer preferences, cuisine trends, and key business insights.

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2026

University of Rajasthan

Jaipur, Rajasthan

- Relevant Coursework: Python Programming, Database Management Systems (SQL), Data Structures, Statistics, Data Analysis.

PROJECTS

CRM Data Cleaning & Mining Web App | Python | Streamlit | Apify

2025

- Developed a Streamlit-based web application to clean and transform scraped data into a predefined CRM-compatible Excel format.
- Processed data collected from platforms such as Facebook and Instagram using Apify, handling unstructured data for structured analysis.
- Applied data cleaning and mining rules to organize, standardize, and prepare records for CRM use and generate cleaned Excel outputs.

Diagnosing Ride Failures | Python | Pandas | NumPy | Matplotlib

2025

- Analyzed ride failure data to identify key factors contributing to trip cancellations and service disruptions.
- Performed data cleaning and exploratory data analysis using Pandas and NumPy to identify patterns across driver behavior, peak hours, and locations.
- Created visualizations using Matplotlib to analyze cancellation trends and derive data-driven insights.

TRAINING & CERTIFICATIONS

AI & Data Science Training

Nov 2025 – Feb 2026

AU Ignite Training Program

Certificates:

- Data Science Certification** — AU Ignite
- Data Science Internship Certificate** — Cognifyz Technologies
- Data Analyst Internship Certificate** — Creatik AI
